

## Science & Math Enrichment Program

### *Abracadabra!*

Explore the history and mystery of magic tricks and tricksters. From alchemy to escape artists learn how impossible illusions are possibly accomplished, using sensational science and marvelous math.

While we will not be sawing anyone in half, we will master some amazing skills to amuse and astound. Try your hand at sleight of hand. And Presto!

No wand required.

Mrs. Joan Batson will teach this exciting science and math enrichment series that explores magic. We will perform hands-on experiments and activities, including magic tricks and illusions!
